

## Department of the Environment, Water Heritage and the Arts – Environmental Compliance Audits

**Client: Australian Government Department of the Environment, Water, Heritage and the Arts**

E3 Consult has provided lead auditor services on various compliance audits for the Australian Government to assess compliance of projects approved under the Environment Protection Biodiversity and Conservation Act 1999.

Audits have included residential developments across Australia comprising a variety of settings from the Victorian Alps, Darwin, and the Gold Coast, and focussed on protection of matters of national environmental significance. E3 provided audit planning, audit team training and briefing, conducted opening meetings, undertook auditee personnel interviews, document review and assessment, and completed reporting requirements.

E3 staff have had extensive experience with compliance activities in the Department and have provided auditing services to satisfy Australian Government policies and procedures, whilst providing training both in Canberra and on site. Some audits have also involved co-regulatory State agencies from Queensland.

The involvement of E3 with the Department of the Environment, Water, Heritage and the Arts demonstrates experience in

- Environmental compliance auditing;
- Knowledge of national environmental legislation, policies and procedures; and
- Training delivery.
