

PRINCIPAL / ASSOCIATE CONTAMINATED LAND SCIENTIST/ENGINEER, BRISBANE

- **Boutique Environmental Consultants**
- **Challenging and rewarding projects**

E3 Consulting Australia Pty Ltd (E3) is a professional services firm providing consulting services in the environmental space. With offices in Brisbane and Sydney, we strive to add value by delivering on core specialist skills and exceptional levels of service.

E3 provides its employees with a great working environment, flexible working arrangements, competitive remuneration packages and the opportunity to work on some key projects in Australia. Our staff are incredibly motivated by a working environment that respects diligence, integrity, innovation and technical ability and that allows them to grow and work in a genuine consulting culture.

An exciting opportunity exists for a Principal or Associate Contaminated Land Scientist / Engineer to lead and/or work on a range of contaminated land and remediation projects mainly in Queensland. Based in Brisbane and reporting directly to the Director overseeing the Contaminated Land Group you should possess experience in managing junior staff and multi-disciplinary projects.

You must be currently accredited by DERM as a Suitability Qualified Person Section 381 of the Queensland Environmental Protection Act (1994). Direct experience in one or more of the following aspects would also be an advantage - quantitative risk assessment, hydrogeology, landfill design and management, and site remediation.

To be considered for this role you should possess:

- An Environmental Science/Engineering degree or other relevant degree
- A minimum of 10 years experience in an environmental role, with at least 5 years in a consulting environment
- Working knowledge of relevant DERM Guidelines for the Assessment and Management of Contaminated Land in Queensland and National Standards NEPM;
- Excellent written and verbal communication skills and experience in relevant environmental documentation
- As a project director/manager, an ability to lead a team of consultants in delivering client projects.
- Demonstrated business development capability in a consulting environment.
- A demonstrated ability to liaise with clients and other stakeholders

If you are seeking a new challenge and the opportunity to progress your career whilst still maintaining your work-life balance, call today for a confidential discussion on +61 7 3828 6910.
